Subject Index

- Actinomycin D**, for rhabdomyosarcoma in children, 19-20
in treatment of neuroblastoma in children, 15-16
in treatment of Wilms' tumor in children, 17-18
- Advertising, and smoking, 118
- Alkaloids, Vinca, vinylicinate as one of the, 50
- American Cancer Society, 74-75
committee on Tobacco and cancer, 259-260
Scientific Session 1967, 74-75
study of changes in cigarette smoking habits among physicians 1959-1965, 193-195
study of, on communicating cancer information through mass distribution leaflets, 291-293
- American Speech and Hearing Association, and members qualified to accept laryngectomies for speech services, 251-258
- Anonymous, 39
- Anticoagulants, failure of, to influence development of metastases in animals, 94
effects of, on leukocytes of normal subjects and those with leukemia and Hodgkin's disease, 249
- Antigen, in leukocytes of patients with myelogenous leukemia, 144
- Antimetabolite approach to cancer therapy, 146
- Anxiety and depression, in the cancer patient, 159
- Anxiety, in treatment of children aged 1-5 years, 242
- Barium enema**, in checkups of patients with cancer of the colon, 268-277
- Biochemistry, of cancer, 140
- Biopsy, cone, in detection of cancer of cervix, 103
in detection of cancer of cervix uteri, 176-178, 180
- Biology, differences in, in breast cancer, 90
- Biopsy and mammography, 240
- Biopsy, of opposite breast, at time of mastectomy for breast cancer, 309
punch, in detection of cancer of cervix, 103
- Bone scanning with Strontium-85, in detection of skeletal metastases, 88
- Breast cancer, a plea for better education in, 125
biological difference before and after menopause, 90
biopsy and mammography in, 240
chemotherapy adjuvant to radical mastectomy in, 199
classification for, 200
conservative approach to Type I and II tumors in, 198
5-fluorouracil for, 229
inadequate simple mastectomy and, 160-162
incidence of, 201, 267
lack of marked improvement in prognosis and salvage from, 199
and mammography, 187-188
mammography, thermography and xerography in, 108-112
mastectomy for, and biopsy of opposite breast, 309
radical mastectomy for, 199
radiotherapy in, 199
results of treatment of, 199
risk of, in women born to mothers over 30 years of age, 200
and subsequent metastases, 89
and survey mammography, 305
5-year survival in, 223
Thio-TEPA for, 229
treatment in disseminated, 199
treatment in experimental, 50
vinblastine for, 229
ways of improving prognosis in, 85
- Breast, cancer of, frequency distribution of, 8
- Breast, masses of, differential criteria of, 25
normal radiographic anatomy of, 24
- Burkitt's lymphoma, chemotherapy and, 49
viral patterns and chemotherapeutic response of, 50
- Cancer**, and distribution of inherited serum haptoglobin types, 247
and emotional problems arising during management, 159
and environmental causation, 140
and heat therapy, 246
and the laser in treatment of, 295-298
and problem of pessimism, 7-14
and weight of pineal glands, 246
around the world, 34, 42-43
biochemistry of, 140
communication of information through mass distribution leaflets about, 291-293
decisions about needed tests and prophylactic procedures in, 52
diagnosis of pigmented lesions and, 163-164
epidermoid, phases of, 175
experimental, in intact new born Syrian hamsters, 146
how the FDA evaluates drugs related to, 157-159
human, karyotypic makeup of chromosomes in, 47-48
hydroxypoline excretion in, 124-125
incidence of multiple, 144
nursing the patient with, 126-127
in various sites, frequency distribution of, 7-13
public and professional education about, 7-14
research in, 101
serum mucoid levels, in, 202
seven lymphoid cell lines established in patients with various forms of, 247
Cancer of the cervix, 150-156
Cancer of the cervix uteri, 173-182
Cancer checkups, why people do or do not have, 76-79
Cancer chemotherapy course, 197
Cancer of colon, examination in, 269-270
Cancer detection examinations, the case for periodic, 219-225
Cancer detection, responsibility of practitioner in, 215-218
Cancer detection center, doctor's office as, 165-172
Cancer patients, discrimination against, 172
and rehabilitation, 305
role of internist in management of, 299-301
St. Peregrine, the patron saint of, 183-184
Cancer treatment, team approach to, 80-82
Carcinogenic hazards of ionizing radiation in diagnostic and therapeutic radiology, 278-287
Carcinogenic hydrocarbons in human environment, 202
Carcinoma, intraoral squamous cell, recurrent, 245
mammary, in mice, incidence not affected by germ-free state, 94
primary, of lung, 262-267
renal, spontaneous regression following palliative nephrectomy in, 199
Cells, characteristics of, in chronic myelocytic leukemia, 144
morphology of, in recurrent intraoral squamous cell carcinoma, 245
Cervix, adenocarcinoma of, 175
cancer of, changes in cytology grading within 3 years in, 152
cancer of, 150-156, 102-104
cancer of, cervical scrape in detection of, 150
cancer of, in high-risk populations, 151
cancer of, vaginal irrigation smear in detection of, 150
invasive carcinoma of, complicated by pregnancy, 83-84
carcinoma of, pregnancy factor in, 175
Cervix uteri, cancer of, 206-208
chromosomal changes in pre-invasive lesions of, 249
cancer of, 173-182
cancer of, adequate methods of detection in, 179
cancer of, current concepts of, 173-174
cancer of, cytological and biopsy

Subject Index

- methods employed in detection of, 176-179
- cancer of, frequency distribution of, 8
- cancer of, irradiation treatment of, 206-207
- cancer of, patient-obtained vaginal irrigation smear in detection of, 102-103
- cancer of, surgery in treatment of, 207-208
- cancer of, survival rates in, 208
- importance of routine gynecological examination for cancer of, 208
- cancer of, vaginal irrigation smear in detection of, 304
- Checkups, barium enema in, of patients with cancer of the colon, 268-277
- cancer, why people do or do not have, 76-79
- preachment and practice of physicians toward, 98-101
- Chemotherapy, and Burkitt's lymphoma, 49
- and splenectomy, 141
- cancer, adjuvant, 226-229
- combined with X-irradiation, in Hodgkin's disease, 202
- for Burkitt's tumor, 50
- for testicular tumors, 58
- increased use of, in leukemia, 306
- infusion, of liver metastases with objective evaluation of response, 88
- of malignant lesions in children, 15-20
- response of major "solid tumors" to, 228
- Children, aged 1-5 years, anxiety in treatment of, 242
- chemotherapy of malignant lesions in, 15-20
- osteogenic sarcoma or Ewing's sarcoma in, 199
- Chromosomal changes, in preinvasive lesions of human uterine cervix, 249
- Chromosome, abnormal acrocentric marker, in bone marrow of patients with multiple myeloma, 146
- Cigarette smoking, changes in habits among physicians 1959-1965, 193-195
- decrease in, of physicians, 198-199
- hazards of, and medical profession's duty, 310
- Cigarettes, treated with NaNO_2 , 50
- and yield of tar and nicotine, 89
- Classification, of breast cancer, 200
- of Hodgkin's disease, histologic groups in, 305
- in lung cancer, 61
- of testicular tumors, 2-3
- of thyroid cancer, 31
- Clinical features, of lung cancer, 63-64
- Colon and rectum, cancer of, an evaluation of routine sigmoidoscopy for, 113-114
- cancer of, quiz on, 105-107
- Colon cancer, and high intake of fats, 246
- ovariectomy in, 212
- Colon, cancer of, and inguinal hernia, 91
- cancer of, case studies of examinations for, 270-276
- carcinoma of, 5-fluorouracil for, 229
- examination of, and roentgenologist's description, 46
- Coitus, and uterine cancer, 146
- Criteria, differential, of breast masses, 25
- Cryosurgery, for management of benign and malignant tumors, 189-192
- Cyclophosphamide, in treatment of neuroblastoma in children, 15-16
- Cytology, in cancer of cervix, 150-156
- in detection of cancer of cervix uteri, 178-179
- uterine, amendment to New York State Public Health Law on, 182
- Death rates, from stomach cancer, in U.S., 116
- Detection, of breast cancer, mammography, thermography and zerography in, 108-112
- Diagnosis, differential, of testicular tumors, 5
- of intraoral cancer, the case for, 119
- of lung cancer, 64, 264
- of testicular tumors, 2-6
- Disease, comments on, 136
- Dissection, radical retroperitoneal node, for testicular tumors, 57-58
- DL-glyceraldehyde, 137-138
- DNA synthesis, *in vivo*, by thymidine- H in surgically removed human neoplasms, 146
- Doctor's office, a cancer detection center, 165-172
- Drugs, evaluation of, related to cancer by FDA, 157
- Education, professional, need for, about cancer prognosis, 7-14
- public, need for, in early cancer detection, 7-12
- research as life-blood of, 294
- Elderly, care of, in organized and institutional settings, 82
- Endometrial cancer, history of, treatment of, 172
- Enema, barium, special technique of, for colon polyp detection, 185-186
- Epidermoid cancer, phases of, 175
- Environmental causation of cancer, 140
- Erythema, solar energy relationships for, 232-235
- Etiology, of testicular tumors, 4
- Evaluation, of routine sigmoidoscopy, 113-114
- Ewing's sarcoma, conclusions concerning, 309
- Examinations, annual physical attitudes of physicians to, 167
- for cancer of colon, 270
- importance of routine, for gynecological cancer, 208
- physical, as advance in modern medicine, 139
- physical, as cancer detection procedure, 216-218
- physical, for testicular tumor, 5
- sigmoidoscopic, and its value, 90-91
- Excretion, hydroxyproline, in cancer, 124-125
- Fats, high intake of, associated with colon cancer, 246
- FDA, and evaluation of drugs related to cancer, 157-159
- Feedback, 90-91, 123, 238-239, 301
- Gastric acidity on histamine analysis of stomach, 5-year survivors and normals, 222

- and cancer, 246
- inguinal, and colon carcinoma, 238
- Histamine achylorhydria, in stomach cancer, 115
- Histamine, in gastric analysis, for stomach cancer, 115
- Histology, of lymphangiosarcoma, 213
- Hodgkin's disease, combined X-irradiation and chemotherapy in treatment of, 202
- frequency distribution of, 10
- Hospitals, municipal, as centers for clinical teaching, 148
- Hydroxyproline excretion, in cancer, 124-125
- Hyperthermia, 137-138
- Ideas, the necessity for thought and, in medical profession, 218
- Immunoelectrophoresis, results of, in myelogenous leukemia, 144
- Incidence, of breast cancer, 201, 267
- of breast cancer in women born to mothers over 30 years of age, 200
- of cancer, familial predisposition to, 308-309
- of cancer of the colon, 268-269

Subject Index

- of developing a second serious cancer, 144
- of testicular tumors, 4
- Infancy, and X-ray therapy, 92
- Infusion chemotherapy, of liver metastases, a new method of, 88
- Internist, role of, in management of cancer patients, 294-296
- Intraoral cancer, case for early diagnosis of, 119
- Irradiation, fractionated total body, for disseminated lymphosarcoma, 141-142
 - preoperative, indication and prospects for, 70-73
 - whole body, for chronic lymphocytic leukemia, 246
- Irradiation therapy, for cancer of cervix uteri, 206-207
- KC-555**, 196-197
- Lahey Clinic Foundation course**, 197
- Laryngectomees, and members of American Speech and Hearing Association, 251-258
- Larynx, cancer of, frequency distribution of, 9
- Laser, and dosage measurements, 298
 - its role in cancer, 297-300
- Leukemia, acute, in children and tolerance to intrathecal methotrexate, 246
 - chronic lymphatic, lymphocytes in, after total body radiation, 50
 - chronic lymphocytic and leukolymphosarcoma, statistics on complete remissions in, 89
 - chronic myelocytic, characteristics of cells in, 144
 - decrease in mortality rates in U.S., 92
 - myelogenous, antigen in leukocytes of patients with, 144
 - problems and procedures in detecting time-space clustering of, 94
 - in radiologists, 281
 - study of, and increased use of chemotherapy, 306
- Leukemia and Hodgkin's disease, effects on anticoagulants on leukocytes of patients with, 249
- Leukolymphosarcoma and chronic lymphocytic leukemia, statistics on complete remissions in, 89
- Looking at Cancer, 47-48, 88-90, 141-143, 198-199, 245-246, 308-309
- Lung cancer, 60-67
 - classified as nonresectable and survival rates, 123
 - classification of, 61
 - clinical features of, 63-64
 - diagnosis of, 64
 - incidence of adenocarcinoma and anaplastic carcinoma as opposed to squamous cell carcinoma in, 199
 - in nonsmoking population, 199
 - in women, comparison between smokers and nonsmokers, 93
 - mediastinoscopy in, 120-122
 - pathology of, 61-63
 - prognosis in, 66
 - related to smoking habits, 62
 - studies on, 60-61
 - treatment of, 64-66
 - vinglycin sulfate in, 94
- Lung, cancer of, statistics on, 34
- carcinoma of, three basic types of, 262
 - primary carcinoma of, 262-267
- Lymphadenectomy, radical retroperitoneal, plus irradiation for seminoma, 210
- retroperitoneal, for testicular tumors, 56-57
- Lymphangiosarcoma, histology of, 213
 - in the lymphedematous extremity, 213-214
 - morphology of, 213
 - predisposing factors to, 213
 - treatment and prognosis of, 213-214
- Lymphocytes, in leukemia and nonleukemic patients, 50
- Lymphoid cell lines established in various forms of cancer, 247
- Lymphoma, Burkitt's, chemotherapy and, 49
- Lymphosarcoma, disseminated, and fractionated total body irradiation, 141-142
- Males**, death rates from cancer, by site, in U.S. in, 39
- Mammography, and biopsy, 240
- collimation in, 26-27
- in detection of breast cancer, 108-109
- dose of roentgens for, 29
- survey, and breast cancer, 294
- Management, of benign and malignant tumors, cryosurgery for, 189-192
 - of cancer patient, problems arising in, 129
 - rationale for, of thyroid cancer, 30-33
- Management of cancer patients, role of internist in, 294-296
- Mastectomy, for breast cancer, and biopsy of opposite breast, 309
 - inadequate, simple, 160-162
 - need for change in nomenclature in describing simple, 162
 - radical, for breast cancer, 199
 - simple, indications for, 160
- Mediastinoscopy, a description of the technique, 120
- complications in, 122
- in carcinoma of the lung, 120-122
- indications for, 121
- Medical data, on radiation exposure, 282-285

- Medicine, advances in, 139
 - a look into the future of, 243-244
 - as an abstraction in referring to medical community, 48
 - motivation in, 68-69
 - practical and philosophical considerations about, 130-136
- Melanoma, and moles, 143
 - cutaneous, of skin, 104
 - diagnosis of, 163-164
 - disseminated, effects of phenylalanine mustard and methotrexate on, 48
- Melanomas and moles, 156
- Melphalan (phenylalanine mustard), in myeloma, 125
- 6-mercaptopurine, in treatment of leukemia, 245
- Metastasis, cervical lymph node, from unknown primary sites, 240
- Metastases, experimental production of, and anticoagulants, 94
 - from breast cancer, 89
- Method, new, of infusion chemotherapy of liver metastases, 88
- Methotrexate, combined with phenylalanine mustard, in disseminated melanoma, 48
 - in treatment of leukemia, 245
- Mind, clinical, 132-134
- Moles, and melanoma, 143
 - criteria for removing, 156
- Morphology, of lymphangiosarcoma, 213
- Mortality rates, in diseases associated with smoking, 89
 - in U.S., for leukemia, 92
- Motivation in medicine, 68-69
- Multiple enzyme therapy, 301-302
- Myeloma, melphalan (phenylalanine mustard) in, 125
 - plasmacytic, TM in treatment of, 94
- Naessens Serum**, 86-87
- NaNO₂, used in treated cigarettes to lessen toxicity of smoke condensate, 50
- Nasopharynx, carcinoma of, incidence, pathology, stage distribution, age pattern, treatment and results in, 141
- Neoplasms, malignant, in children, chemotherapy of, 15-20
- Neoplastic diseases, and adjuvant studies of chemotherapy, 229
- Neuroblastoma, in children, actinomycin D in treatment of, 15-16
- New Drug Application, as a safeguard against "quack" cancer remedies, 158-159
- Now Hear This! 46, 93, 139-140, 201, 240, 294
- Nursing, of the cancer patient, 126-127
- Orchiectomy**, combined with radiotherapy for testicular cancer, 199
 - plus irradiation for treatment

Subject Index

- of seminoma, results of, 210
 radical, in treatment of testicular tumors, 54-55
 Ovariotomy, and estradiol benzoate, in treatment of experimental breast cancer, 50
 in cancer of colon, 212
 Ovaries, cancer of, death rate in, 140
 cancer of, difficulties in detecting, 140
- Patient**, responsibility of, 96
 Pathology-cytology correlations, in cancer of cervix, 153
 Pathology, of cancer of cervix uteri, 175
 of lung cancer, 61-63
 of testicular tumors, 3-4
 Pessimism, problem of, and cancer, 7-14
 Pigmented lesions, guides for surgical removal and histologic examination of, 163-164
 Pineal gland, weight of, and cancer, 246
 Phenylalanine mustard, combined with methotrexate, in disseminated melanoma, 48
 Physician, attitudes of, toward cancer checkups, 289-290
 and medical meetings, 84
 and patient relationship, 68-69
 and the press, 139
 responsibility of, to patient, 96
 Physicians, changes in cigarette smoking habits of, 193-195
 and cigarette smoking, 198-199
 and physical checkups, 98-101
 number of, by 1975, 107
 and voluntary health movement, 230
 Poverty, and health care, 188
 Practitioner, responsibility of, in cancer detection, 215-218
 Prednisone, in treatment of leukemia, 245
 Pregnancy, and cancer of cervix uteri, 207
 and invasive carcinoma of cervix, 83-84
 Preoperative irradiation, indication and prospects for, 70-73
 policies of, 72-73
 advantages to be derived from, 71-72
 disadvantages of, 72
 fundamental principles of, 70-71
 Prevention, of skin cancer, 235
 Proctosigmoidoscopy, in detection of adenocarcinoma of rectum, 225
 Professional individualism, 134-135
 Professional mind, 130-136
 Prognosis, in breast cancer, ways to improve, 85
 in lung cancer, 66
 Prostate cancer, 5-year survival in, 223
 Prostate glands, distribution of zinc and magnesium in, 249
- Public Law 89-97—Title 18 and 19, 148
- Quiz**, on cancer of colon and rectum, 105-107
- Radiation**, delayed effects of, 281-282
 its effects on lymphocytes in leukemia patients, 50
 ionizing, carcinogenic hazards of, in diagnostic and therapeutic radiology, 278-287
 medical data on, 282-285
 preoperative, advantages to be derived from, 71-72
 preoperative, disadvantages of, 72
 preoperative, fundamental principles of, 70-71
 for testicular tumors, 55-56
 total body, some potential harmful effects of exposure to, 280
 Radiation effects, 279-281
 sources of, 278-279
 Radiation therapy, factors involved in, 93
 for lung cancer, 66
 for retinoblastoma, 48
 for rhabdomyosarcoma in children, 18-20
 Radiographic transparency, of lung, 262-263
 Radiologists, leukemia in, 281
 shortage of, 204
 responsibilities of, and referring physician in cancer of colon, 269
 Radiotherapy, for treatment of seminomas, 209
 in breast cancer, 199
 Radiotherapy resolution, 293
 Rectum, adenocarcinoma of, detected on recheck proctosigmoidoscopies, 225
 Rectum and colon, cancer of, quiz on, 105-107
 Regression, spontaneous, following palliative nephrectomy for renal carcinoma, 199
 Rehabilitation, and cancer patient, 305
 Remissions, in chronic lymphocytic leukemia and leukolymphosarcoma, 89
 Report on Surgeon General's Advisory Committee on Smoking and Health, 89
 Reporting on Cancer Research, 50-51, 94-95, 146-147, 202-203, 249-250, 303-304
 Research, and funds, 138
 in cancer, 101
 the life-blood of education, 294
 Resolution, on radiotherapy, 293
 Retinoblastoma, and radiation therapy, 48
 Rhabdomyosarcoma, in children, actinomycin D in treatment of, 19-20
 in children, radiation therapy in treatment of, 18-20
 in children, surgery in treatment of, 19
- Roentgenologist, need for terms of, to be confined to pathology, 46
- Samuels Causal Therapy**, 44-46
 Sarcoma, Ewing's, conclusions concerning, 309
 osteogenic or Ewing's, related to height, 199
 Scholar, clinical vs. scholarly clinician, 238
 Sciences contributing to one another, 240
 Screening, for cancer of cervix, patient-obtained vaginal irrigation smear in, 102-103
 for stomach cancer, gastric analysis in, 115-117
 Seminoma, results of treatment for, 210
 Seminomas, radiation therapy for, 55-56
 radiotherapy for, 209
 Serum mucoid levels in cancer patients, 202
 Sigmoidoscopy, in cases of hernia, 123
 legal questions about, 90-91
 for patients with inguinal hernias, 91
 routine, and evaluation, 113-114
 Skin, cancer of, 34
 cutaneous melanoma of, 104
 effects of sunlight on, 231-232
 pigmented lesions of, differential diagnosis of, 163-164
 Skin cancer, experimental data on, 232
 prevention of, 235
 and the sun, 231-238
 Smear, time interval in repeating a cytology, 150-156
 vaginal irrigation, 308
 vaginal irrigation, in detection of cancer of cervix, 102-103, 150
 Smoke condensate, effects of NaNO_2 on cigarettes and, 50
 Smoking, cigar and pipe, opposed to cigarette, 245-246
 and government's contribution to, 296
 and lung cancer in women, 93
 and mortality rates, 89
 reasons for, 118
 Smoking habits, related to lung cancer, 62
 Spectrophotometric methods, used to reveal distribution of zinc and magnesium in prostate glands, 249
 Splenectomy, for leukopenia or thrombocytopenia in malignant lymphoma, 141
 Statistics, on annual checkups of physicians, 98-101
 on breast cancer, 85, 199
 on cancer, 34-43
 on cancer of colon and rectum, 114
 on cancer deaths of men and women, 1966, 220-221
 on carcinoma of nasopharynx, 141

Subject Index

- of cervical cancer, in high-risk populations, 151
- on death rates in ovarian cancer, 140
- on diagnostic procedures for cancer of cervix, 103
- on intraoral cancer, 119
- on life expectancy, 82
- on lung cancer in women, 93
- on physicians by 1975, 107
- on stomach cancer patients with gastric analysis, 116
- on thyroid cancer, 59
- on treatment for tumors of testes, 210-211
- Stomach cancer, gastric acidity on histamine analysis in, 222
- gastric analysis as a screening measure for, 115-117
- gastric analysis unsatisfactory as a screening method for, 162
- Studies, on lung cancer, 60-61
- Study, of communicating cancer information through mass distribution leaflets, 291-293
- of lung cancer, by presidential task force, 248
- of motivational, attitudinal and environmental deterrents in cancer checkups, 76-79
- Sun, and skin cancer, 231-238
- Sunburn, topical measures for, 235-236
- treatment of, 237
- systemic measures to control, 236
- Sun damage, reversal of, 237
- Sunlight, and its effects on the skin, 231-232
- Surgery, for lung cancer, 64-65, 264-265
- for cancer of cervix uteri, 207-208
- for thyroid cancer, 32-33
- for rhabdomyosarcoma in children, 19
- for Wilms' tumor in children, 16
- prophylactic, necessity of, 52
- Survival, 5-year, in breast cancer, 223
- 5-year, in prostate cancer, 223
- five-year, in tumors of testes, 57
- in lung cancer, 267
- Survival rates, in cancer of cervix uteri, 208
- of nonresectable lung carcinoma, 123
- Systemic measures, to prevent effects of solar radiation, 236
- Teaching, the case against, 164
- Team approach, to cancer treatment, 80-82
- Technicians, radiologic, as an answer to radiologist shortage, 204
- Terminology, of roentgenologist, in communicating with other physicians, 46
- Tests, diagnostic and prognostic, needed or needless? 52
- laboratory, in diagnosis of testicular tumors, 5-6
- Test, tetracycline fluorescence, in detection of gastric cancer, 202-203
- Testes, cancer of, high incidence of, in military hospitals, 199
- radical orchiectomy for tumors of, 54-55
- seminoma of, frequency distribution of, 9
- treatment of tumors of, 54-59, 209-212
- tumors of, chemotherapy for, 58
- tumors of, classification of, 2-3
- tumors of, clinical features of, 4-6
- tumors of, diagnosis of, 2-6
- tumors of, etiology of, 4
- tumors of, incidence of, 4
- tumors of, pathology of, 3-4
- tumors of, radical retroperitoneal node dissection without radiation for, 57-58
- tumors of, relationship to trauma, 4
- tumors of, retroperitoneal lymphadenectomy for, 56-57
- tumors of, statistics on treatment of, 210-211
- Tetracycline fluorescence test for gastric cancer, 202-203
- Theory, decision, description of, 309
- new, evolution and acceptance of, 112
- Therapy, heat, for cancer, 246
- radiation, international symposium on, 290
- Thermography, in detection of breast cancer, 109-111
- Thio-TEPA, for breast cancer, 229
- Thyroid, cancer of, classification in, 31
- cancer of, rationale for management of, 30-33
- Thyroid cancer, 92
- a fatal disease, 59
- surgery for, 32-33
- Thyroidectomy, for thyroid cancer, 33
- Tobacco manufacturers, and their ability to control yield of tar and nicotine, 89
- Trauma, relationship of testicular tumors to, 4
- Treatment, of cancer, team approach to, 80-82
- of invasive carcinoma of cervix complicated by pregnancy, 83-84
- of lung cancer, 64-66
- of testicular tumors, 54-59
- of testicular tumors, radical orchiectomy in, 54-55
- of sunburn, 237
- Treatment and prognosis, of lymphangiosarcoma, 213-214
- Trophoblastic neoplasms, southeastern regional center for, 29
- Tumor, behavior of, predicted by microscopic appearance, 198
- Tumors, benign and malignant, cryosurgery for management of, 189-192
- testicular, diagnosis of, 2-6
- testicular, chemotherapy for, 58
- testicular, five-year survival rate for patients with, 57
- testicular, orchiectomy in treatment of, 54-55
- testicular, radiation therapy for, 55-56
- testicular, retroperitoneal lymphadenectomy for, 56-57
- testicular, treatment of, 54-59, 209-212
- Type I and II, in breast cancer, 198
- Unproven Methods of Cancer Treatment, Hadley Vaccine and Blood and Skin Tests, 241-242**
- Heat Therapy or Hyperthermia, 137-138
- KC-555, 196-197
- Multiple Enzyme Therapy, 301-302
- Naessens Serum or Anablast, 86-87
- Samuels Causal Therapy or "Endogenous Endocrinotherapy", 44-45
- Uterine cervix, cancer of, death rates and incidence rates of, 40
- Uterus, cancer of, factors influencing risk of, 146
- cancer of, statistics on, 34
- Utricle, prostatic, endometrial carcinoma of, case report of, 308
- Vaginal irrigation smear, 308**
- Viewing the Journal of the National Cancer Institute, 49, 92-93, 144-145, 200-201, 247-248, 306-307
- Vinblastine, and its analogs, 50
- for breast cancer, 229
- Vincristine sulfate, in treatment of neuroblastoma in children, 15-16
- Vincristine, in treatment of leukemia, 245
- Vinglycin, activity of, and its effect of reduced toxicity, 50
- Voluntary health agencies, 230
- Wilms' tumor, in children, actinomycin D in treatment of, 17-18**
- in children, surgery for, 16
- in children, X-ray therapy in treatment of, 18
- World, cancer around the, 34, 42-43
- X-ray, in diagnosis of testicular tumors, 5-6**
- X-ray therapy, for chronic lymphocytic leukemia and leukolymphosarcoma, 89
- in infancy, 92
- in treatment of Wilms' tumors in children, 18
- Xerography, in detection of breast cancer, 111-112
